

Statistical bulletin

Business investment in the UK: Quarter 3 (July to Sept) 2016 revised results

Investment trends for businesses in the UK, including spending on transport equipment, machinery, buildings and intangible assets.

Release date: 23 December 2016

Next release: 23 February 2017

Notice

23 December 2016

Following a quality review it has been identified that the methodology used to estimate elements of purchased software within gross fixed capital formation (GFCF) has led to some double counting from 1997 onwards. When this issue is amended in The Blue Book 2017 it will reduce the level of GFCF across the period by around 1.1% per year. The average impact on quarter-on-quarter GFCF growth is negative 0.02% and the average impact on quarter-on-quarter GDP growth is 0.00%.

1. Main points

Gross fixed capital formation (GFCF), in volume terms, was estimated to have increased by 0.9% to £78.4 billion between Quarter 2 (Apr to June) 2016 and Quarter 3 (July to Sept) 2016.

Between Quarter 2 2016 and Quarter 3 2016, business investment, in volume terms, was estimated to have increased by 0.4%, from £43.8 billion to £44.0 billion; revised down 0.5 percentage points from the previously estimated 0.9% increase.

Between Quarter 3 2015 and Quarter 3 2016, GFCF was estimated to have increased by 0.5%, from £78.0 billion to £78.4 billion.

Business investment was estimated to have decreased by 2.2% between Quarter 3 2015 and Quarter 3 2016, from £45.0 billion to £44.0 billion; revised down 0.6 percentage points from the previously estimated 1.6% decrease.

In line with the National Accounts Revisions Policy, the earliest period being revised in this release is Quarter 1 (Jan to Mar) 2015 through to Quarter 3 2016, Quarter 3 2016 being the first full quarter since the EU referendum. Though business investment has been revised downwards for Quarter 3 2016 in this release, it is still within the range of recent quarters.

2. Future changes

Introduction of theme days

From January 2017 we are improving the way we publish economic statistics, with related data grouped together under new "theme" days. This will increase the coherence of our data releases and involve minor changes to the timing of certain publications. For more information see Changes to publication schedule for economic statistics.

Changes to gross fixed capital formation (GFCF) estimation system

We are currently redeveloping the GFCF estimation system in line with the 5-year strategy for the <u>UK National Accounts</u>, 2015 to 2020 published in July 2015 and recommendations from the Bean Review. As a result we will be introducing some methodological changes to the new GFCF system, including improved deflation and seasonal adjustment methodology.

An article will be published in January 2017 outlining these changes and the implementation timetable.

Separately, at a later date, we will be publishing more information on the impact of these changes on the GFCF dataset prior to its introduction ahead of Blue Book 2017.

Purchased software

Following a quality review it has been identified that the methodology used to estimate elements of purchased software within GFCF has led to some double-counting from 1997 onwards. When this issue is amended in the Blue Book 2017 it will reduce the level of GFCF across the period by around 1.1% per year. The average impact on quarter-on-quarter GFCF growth is negative 0.02% and the average impact on quarter-on-quarter GDP growth is 0.00%.

3. About this release

The estimates in this release are short-term indicators of investment in non-financial assets in the UK, such as dwellings, transport equipment, machinery, buildings and intellectual property products. This release covers not only business investment, but asset and sector breakdowns of total gross fixed capital formation (GFCF), of which business investment is one component.

Business investment is net investment by private and public corporations. These include investments in:

- transport
- information and communication technology (ICT) equipment
- other machinery and equipment
- cultivated assets
- intellectual property products (IPP, which includes investment in software, research and development, artistic originals and mineral exploration)
- · buildings and other structures

It does not include investment by central or local government, investment in dwellings, or the costs associated with the transfer of non-produced assets (such as land). A full sector and asset hierarchy can be found in the background notes. Business investment is not an internationally recognised concept and therefore it should not be used to make international comparisons.

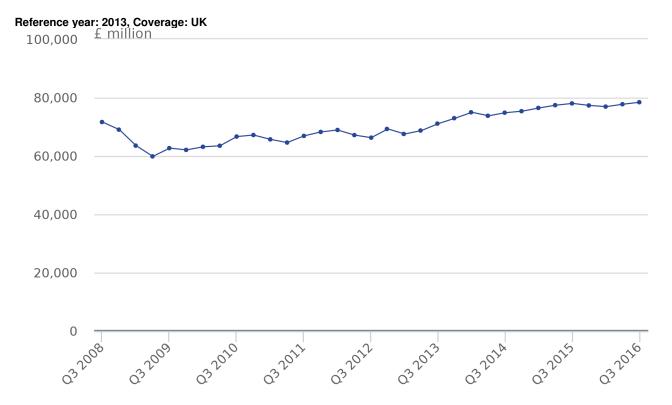

All investment data referred to in this bulletin are estimates of seasonally adjusted chained volume measures.

4. Gross fixed capital formation and business investment

Figures 1 and 2 show that in Quarter 3 (July to Sept) 2016, gross fixed capital formation (GFCF) increased by £0.7 billion (0.9%) compared with Quarter 2 (Apr to June) 2016. This is the second quarter-on-quarter increase in GFCF following consecutive contractions in Quarter 4 (Oct to Dec) 2015 and Quarter 1 (Jan to Mar) 2016. Compared with the same quarter a year ago, GFCF increased to £78.4 billion, 0.5% higher than Quarter 3 2015.

GFCF is now 2.5% above the pre-economic downturn peak of Quarter 1 (Jan to Mar) 2008 (£76.5 billion).

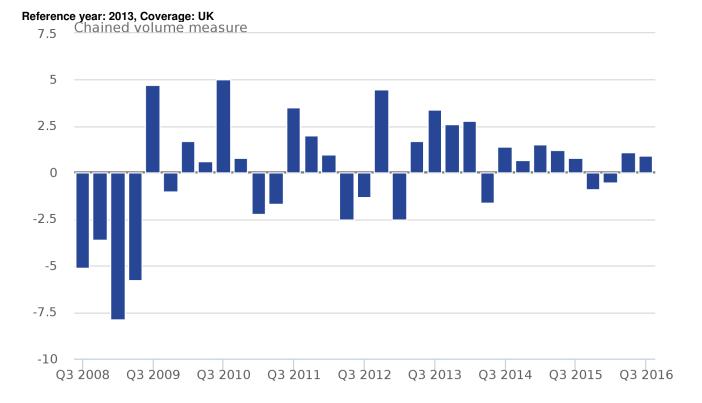

Figure 1: Quarterly levels of gross fixed capital formation chained volume measure, seasonally adjusted, Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016

Notes:

- 1. Q1 = Quarter 1 (January to March), Q2 = Quarter 2 (April to June), Q3 = Quarter 3 (July to September), Q4 = Quarter 4 (October to December).
- 2. The data in this chart covers Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016.

Figure 2: Quarterly growth of gross fixed capital formation, chained volume measure, seasonally adjusted

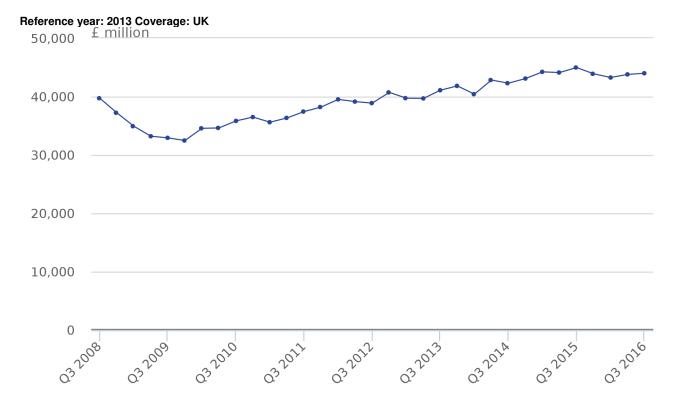

Notes:

- 1. Q1 = Quarter 1 (January to March), Q2 = Quarter 2 (April to June), Q3 = Quarter 3 (July to September), Q4 = Quarter 4 (October to December).
- 2. The data in this chart covers Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016.

Business investment in Quarter 3 2016 increased by 0.4% (Figure 4) to £44.0 billion (Figure 3) when compared with the previous quarter. This was mainly due to an increase in investment in other buildings and structures. As illustrated in Figures 3 and 4, business investment has seen 2 consecutive periods of positive quarter-on-quarter growth following a 1.2% increase in Quarter 2 2016. Business investment is now 7.5% above the pre-economic downturn peak of Quarter 1 2008 (£40.9 billion).

Business investment in Quarter 3 2016 decreased by 2.2% (£1.0 billion) when compared with the same quarter a year ago. This marks 3 consecutive periods of negative growth in business investment when compared with the same quarter a year earlier. The main contributors to the decrease in the latest quarter are information and communication technology (ICT) equipment and other machinery and equipment, and other buildings and structures. However, these falls are partially offset by an increase in transport equipment.

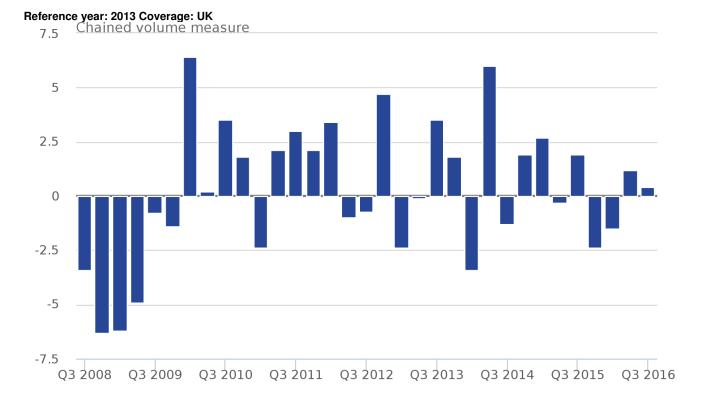

Figure 3: Quarterly levels of business investment chained volume measure, seasonally adjusted, Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016

Notes:

- 1. Q1 = Quarter 1 (January to March), Q2 = Quarter 2 (April to June), Q3 = Quarter 3 (July to September), Q4 = Quarter 4 (October to December).
- 2. The data in this chart covers Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016.

Figure 4: Quarterly growth of business investment, chained volume measure, seasonally adjusted

Notes:

- 1. Q1 = Quarter 1 (January to March), Q2 = Quarter 2 (April to June), Q3 = Quarter 3 (July to September), Q4 = Quarter 4 (October to December).
- 2. The data in this chart covers Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016.

5. Summary tables

Table 1 shows that gross fixed capital formation (GFCF) increased by 0.9% to £78.4 billion in Quarter 3 (July to Sept) 2016 when compared with Quarter 2 (Apr to June) 2016. The largest level increase was seen in the general government sector, which rose by £0.7 billion (5.5%) to £12.6 billion; its highest level since Quarter 1 (Jan to Mar) 2014. The second largest level increase was in business investment, which increased by £0.2 billion (0.4%).

When compared with the same quarter a year earlier, the largest level increases in Quarter 3 2016 were seen in general government, which increased by £0.9 billion (7.7%) and private sector dwellings, which increased by £0.6 billion (4.0%). The largest decrease came from business investment, which fell by £1.0 billion (2.2%).

Table 1: Total gross fixed capital formation in the UK by institutional sector, Quarter 3 (July to Sept) 2016

	% change	% change	£ million	£ million	£ million
	Most recent quarter on previous quarter	Most recent quarter on same quarter a year earlier		Level change from previous quarter	Level change on same quarter a year earlier
Gross fixed capital formation	0.9	0.5	78,402	684	399
Business investment	0.4	-2.2	43,994	195	-983
General government	5.5	7.7	12,610	652	902
Public corporations dwellings	-11.5	-14.8	952	-124	-166
Public corporations cost of ownership transfer on non- produced assets	-3.0	-0.6	-160	5	1
Private sector dwellings	0.8	4.0	15,900	119	613
Private sector cost of ownership transfer on non-produced assets	-3.1	0.6	5,106	-163	32

Notes

1. ** Series may not sum to totals due to rounding.

Table 2 shows that in asset terms, the largest level increase, quarter-on-quarter, in Quarter 3 2016 was in other buildings and structures and transfer costs, which increased by £0.6 billion (2.6%) to £24.8 billion. Transport equipment saw a small level decrease, falling £0.1 billion (1.3%) to £5.3 billion in Quarter 3 2016.

When compared with the same quarter a year earlier, transport equipment saw the largest level increase of £1.0 billion (24.7%). Dwellings also increased quarter on same quarter a year ago, having grown by £0.5 billion (2.7%) to £16.9 billion in Quarter 3 2016.

These increases were partially offset by a decrease in information and communication technology (ICT) equipment and other machinery and equipment, which decreased by 4.5% (£0.7 billion). Other buildings and structures and transfer costs also decreased by 1.7% (£0.4 billion).

Table 2: Total gross fixed capital formation in the UK by asset, Quarter 3 (July to Sept) 2016

	% change	% change	£ million	£ million	£ million
	Most recent quarter on previous quarter	Most recent quarter on same quarter a year earlier	Most recent level **	Level change from previous quarter	Level change on same quarter a year earlier
Gross fixed capital formation	0.9	0.5	78,402	684	399
Transport equipment	-1.3	24.7	5,280	-72	1045
ICT equipment and other machinery and equipment	1.3	-4.5	14,506	193	-689
Dwellings	0.0	2.7	16,902	-7	452
Other buildings and structures and transfer costs	2.6	-1.7	24,840	629	-428
Intellectual property products	-0.3	0.1	16,874	-59	19

Notes:

1. ** Series may not sum to totals due to rounding.

6. Revisions to gross fixed capital formation (GFCF) and business investment

Data in this release have been revised from Quarter 1 (Jan to Mar) 2015 to Quarter 3 (July to Sept) 2016 in line with the National Accounts Revisions Policy.

The main causes of revisions in the data are:

- later responses to the Quarterly Acquisitions and Disposals of Capital Assets Survey (QCAS) for Quarter 2 (Apr to June) 2016 and Quarter 3 2016
- revised data for government estimates of investment (all quarters), which are expected at this point in the reporting cycle
- revised data for private and public corporations' dwellings (all quarters), which are expected at this point in the reporting cycle
- normal changes to the seasonally adjusted series following the addition of an extra data point

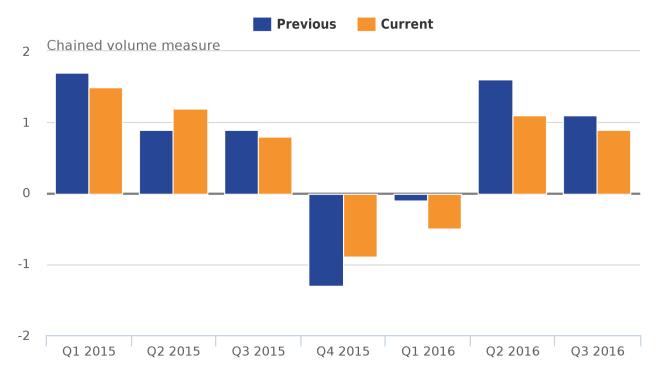

Figure 5 shows both provisional and revised quarterly growth of GFCF. GFCF in Quarter 3 (July to Sept) 2016 has been revised down £0.6 billion to £78.4 billion. For the same period growth has been revised down to 0.9%.

The revisions seen between Quarter 1 (Jan to Mar) 2015 and Quarter 1 2016, came mainly from revised estimates for government investment and revised estimates for dwellings.

Government estimates of investment contributed to the downward revision to growth in GFCF in Quarter 2 (Apr to June) 2016 and Quarter 3 (July to Sept) 2016, as did a revision to public corporations' dwellings investment.

Figure 5: Quarterly gross fixed capital formation (GFCF) growth compared with previously published GFCF growth, chained volume measure, seasonally adjusted

Reference year: 2013 Coverage: UK

Source: Office for National Statistics

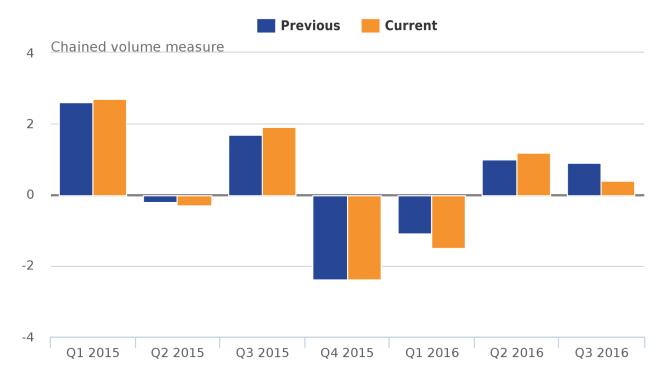

Notes:

- 1. Q1 = Quarter 1 (January to March), Q2 = Quarter 2 (April to June), Q3 = Quarter 3 (July to September), Q4 = Quarter 4 (October to December).
- 2. The data in this chart covers Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016.

Figure 6 shows that following processing of later Quarterly Acquisitions and Disposals of Capital Assets Survey data (QCAS) returns, business investment in Quarter 3 2016 has been revised down £0.2 billion to £44.0 billion. For the same period growth has been revised down to 0.4%. The revisions seen in 2015 are mainly due to changes in the seasonal adjustment profile of the series.

Figure 6: Quarterly business investment growth compared with previously published business investment growth, chained volume measure, seasonally adjusted

Reference year: 2013 Coverage: UK

Source: Office for National Statistics

Notes:

- 1. Q1 = Quarter 1 (January to March), Q2 = Quarter 2 (April to June), Q3 = Quarter 3 (July to September), Q4 = Quarter 4 (October to December).
- 2. The data in this chart covers Quarter 3 (July to Sept) 2008 to Quarter 3 (July to Sept) 2016.

7. Economic background

Gross fixed capital formation (GFCF) grew by 0.5% in the year to Quarter 3 (July to Sept) 2016 following a 0.4% increase in Quarter 2 (Apr to June) 2016, marking 14 consecutive periods of quarter on same quarter a year ago growth. However, the rate of growth in GFCF has slowed consistently since 2014. Quarter on same quarter a year ago growth averaged 6.8% in 2014; fell to 3.5% in 2015 then fell further to 0.5% across the first 3 quarters of 2016.

On a sector basis, the increase in GFCF quarter on same quarter a year ago was mainly driven by investment by general government, which contributed 1.2 percentage points to overall GFCF growth. In contrast, business investment made an offsetting negative contribution to GFCF growth over the same period (negative 1.3 percentage points). An important factor to consider when looking at business investment is the availability or supply of lending. After cutting the base rate to 0.25%, the Bank of England also announced a "Term Funding Scheme" in order to ensure lenders pass on the lower cost of borrowing to borrowers. In the most recent Bank of England's Credit Conditions Review, the supply of lending to companies was reported to be broadly unchanged in Quarter 3 2016, with supply of credit remaining high. However, lenders responding to the Credit Conditions Survey (CCS) reported a "significant fall" in credit demand for firms of all business sizes during the same time period.

Developments in the housing market can also be important for investment and wider activity. Investment in residential dwellings (the new construction, maintenance and repair of homes) was broadly unchanged with 0.0% growth in Quarter 3 2016 on a quarter-on-quarter basis but grew by 2.7% on the same quarter of the previous year. This reflects a mixed picture in the construction industry; the construction of new build housing increased by 12.2% on a same quarter a year ago basis, however, the repair and maintenance of housing fell by 3.3% (
Construction output in Great Britain: Oct 2016 and July to Sept 2016). Further analysis on the construction industry and new orders submitted to tender is set out in the Economic Review: Dec 2016. Over the year to September 2016, house prices as measured by the Office for National Statistics rose by 7.7%.

On an asset basis, the quarter on same quarter a year ago increase in GFCF was mainly driven by transport equipment, which contributed 1.3 percentage points to growth, while information and communication technology equipment and other machinery and equipment made the largest negative contribution to GFCF (negative 0.9 percentage points).

8. Where to find more of our data

We also publish <u>additional analyses of GFCF</u>, business investment and the Quarterly Acquisitions and Disposals of Capital Assets Survey, which have been created in response to user requests. For enquiries about user-requested data email <u>acf@ons.gsi.gov.uk</u>.

9. Adjustments and response rates

Adjustments

Large capital expenditure tends to be reported later in the data collection period than smaller capital expenditure. This means that larger expenditures are often included in the revised (month 3) results, but are not reported in time for the provisional (month 2) results, leading to a tendency towards upwards revisions in the later estimates for business investment and gross fixed capital formation (GFCF). Following investigation of the impact of this effect, from Quarter 3 (July to Sept) 2013, in the revised estimate a bias adjustment was introduced to GFCF and its components.

A bias adjustment of £0.4 billion has been included in the revised (month 3) release for Quarter 3 (July to Sept) 2016. This has been revised down from £0.8 billion in the Quarter 3 2016 provisional estimate. This adjustment will be reassessed in line with previous revisions and will be updated when Quarter 3 2016 is next revised in the Quarter 4 (Oct to Dec) 2016 revised release.

In order to try and improve the quality of the response from our data suppliers, clearer instructions were added to the Quarterly Survey of Capital Expenditure. These updates are outlined in the provisional Quarter 1 (Jan to Mar) 2015 Business investment release. Feedback from some respondents indicated that they had been misreporting their asset breakdown and were correcting this on the new questionnaire. We found that some respondents were reporting new construction work as other capital equipment (OCE). From Quarter 1 2015, respondents to the survey are now reporting more in new construction work at the expense of other capital equipment. To remain consistent with the previous data, we have made some adjustments to the assets in the current price series in Quarter 1 2015 to Quarter 3 2016. These adjustments are shown in Table 3.

Table 3: Adjustments made to buildings and other machinery to account for improved survey information, UK, Quarter 1 (Jan to Mar) 2015 to Quarter 3 (July to Sept) 2016

Period	Adjustment to buildings (£ billion)	Adjustment to machinery (£ billion)
Q1 2015	-1.5	1.5
Q2 2015	-2.1	2.1
Q3 2015	-1.9	1.9
Q4 2015	-1.9	1.9
Q1 2016	-1.9	1.9
Q2 2016	-1.9	1.9
Q3 2016	-2.1	2.1

Notes:

1. Q1 is Quarter 1 (Jan to Mar), Q2 is Quarter 2 (Apr to June), Q3 is Quarter 3 (July to Sept) and Q4 is Quarter 4 (Oct to Dec).

Survey response rates

Table 4 presents the provisional (month 2) and revised (month 3) response rates for the Quarterly Acquisitions and Disposals of Capital Assets Survey (QCAS). The estimates in this release are based on the Quarter 3 2016 month 3 (revised) survey results.

Table 4: UK response rates for quarterly acquisitions and disposals of capital assets survey. Quarter 3 (July to Sept) 2015 to Quarter 3 (July to Sept) 2016

At month 2 (prov	risional)		At month 3 (rev	ised)		
Period	Survey resp	onse rates / %	Period	Survey response rates		
2015	Q3	72.1	2015	Q3	88.4	
	Q4	68.6		Q4	89.8	
	Q1	69.2		Q1	89.4	
2016	Q2	71.4	2016	Q2	89.1	
	Q3	72.8		Q3	83.5	

Source: Office for National Statistics

Notes:

1. Q1 is Quarter 1 (Jan to Mar), Q2 is Quarter 2 (Apr to June), Q3 is Quarter 3 (July to Sept) and Q4 is Quarter 4 (Oct to Dec).

10. Quality and methodology

The <u>Business investment Quality and Methodology Information document</u> contains important information on:

- · the strengths and limitations of the data
- the quality of the output, including the accuracy of the data and how it compares with related data
- uses and users
- · how the output was created

11. Background notes

1. Understanding the data

Short guide to business investment

Gross fixed capital formation (GFCF) is used in the compilation of the UK National Accounts' expenditure approach to the measurement of GDP in the second estimate of gross domestic product (GDP) at month 2 and the Quarterly National Accounts (QNA) at each calendar quarter. It is an estimate of net capital expenditure by both the public and private sectors. Examples of capital expenditure include spending on plant and machinery, transport equipment, software, new dwellings and other buildings, and major improvements to existing buildings and structures, such as roads. The additional assets, research and development and military weapons systems were introduced in the Quarter 2 (Apr to June) 2014 revised results release, published November 2014, consistent with the European System of Accounts 2010 and with the UK Annual National Accounts (Blue Book) 2014.

Business investment estimates are a short-term indicator of net capital expenditure by businesses within the UK, at current prices and chained volume measures, both seasonally and not seasonally adjusted. Business investment is one component of GFCF. Business investment estimates exclude expenditure on dwellings and the costs associated with the transfer of ownership of non-produced assets, and capital expenditure by local and central government.

Interpreting the data

When making comparisons it is recommended that you focus on chained volume, seasonally adjusted estimates as these show underlying movements rather than seasonal movements, and have the effect of changes in prices removed.

Use of the data

Estimates from this release are used by the Office for National Statistics (ONS) in the <u>compilation of the UK National Accounts</u>, and by the Bank of England and Her Majesty's Treasury to monitor economic performance and to inform monetary and fiscal policy decisions. Business investment is also used by other government departments, such as the Department for Business, Energy and Industrial Strategy. In addition, these estimates are frequently used by the business, education and research communities, the media and the general public.

2. Definitions and explanations

Current price (CP):

Current prices are the actual or estimated recorded monetary value over a defined period. They show the value for each item expressed in terms of the prices of that period.

Deflation and chained volume measure (CVM):

Investment is measured across several time periods. The values measured will include both the change in the volume of investment and the effect of the change of prices over the period. Deflation is the process whereby the effect of price change is removed from a set of values.

Deflation can be done simply by dividing a current price estimate by a deflator, which measures the movement in prices. Doing this creates a constant price series. For deflators to accurately measure the movement in prices they need to accurately reflect changing investment habits. We do this by rebasing deflators.

Rebasing deflators has a significant effect on a constant price series and would cause significant revisions to the investment data. To avoid this it has been the standard to not rebase deflators annually. This, however, means the deflators are not accurately measuring price changes.

To resolve this we estimate volumes using chained volume measures, which are derived by linking together (compounding) movements in volumes; calculated using the prices of the previous financial year; and applying the movements to the current price estimates of the reference year. This allows us to remove both the effect of prices and rebasing.

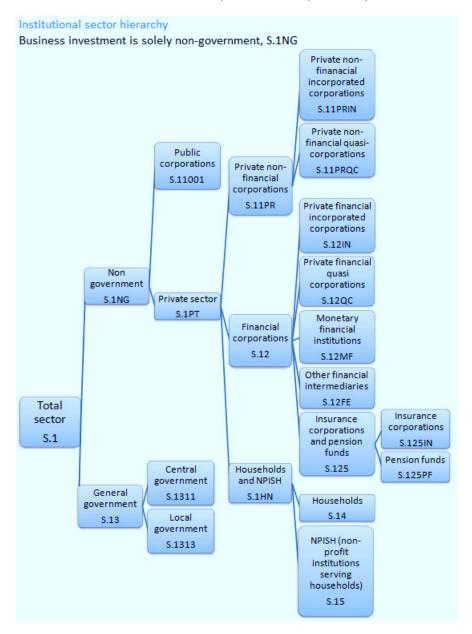

Seasonally adjusted (SA):

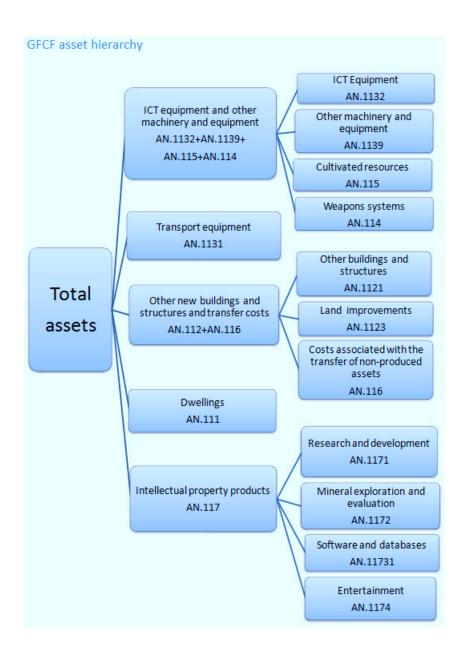

Seasonal adjustment aids interpretation by removing effects associated with the time of the year or the arrangement of the calendar, which could obscure movements of interest.

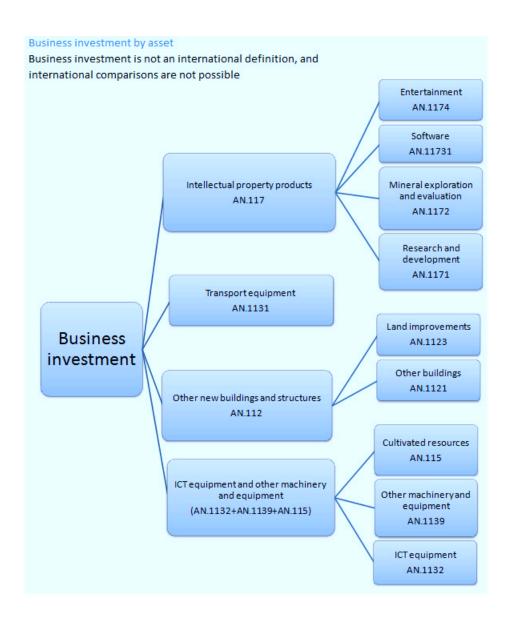

Asset and sector hierarchies:

The diagrams show the institutional and sector hierarchies for GFCF, as set out by the European System of Accounts 2010. The asset hierarchy for business investment is also set out. Business investment is not an internationally defined concept, and the UK's estimates cannot be compared with those of other countries due to definitional differences.

A full list of sector codes, for example S.11001 = public corporations, is available in the datasets.

3. Guide to published assets

Published Asset	Includes	Definition	Examples (N.B. not exhaustive)
Dwellings	Dwellings	Dwellings are buildings, or designated parts of buildings, that are used entirely or primarily as residences, including any associated structures, such as garages, and all permanent fixtures customarily installed in residences	Houses, mobile homes and caravans. However, it should be noted that dwellings does not include prisons, boarding schools or hospitals
Transport	Transport equipment	Transport equipment consists of any equipment used to move people and objects.	Motor vehicles, trailers, ships, trains, trams, aircraft, aircraft, motorcycles, and bicycles
Intellectual property products (IPP)	Research and development	This is the value of expenditure on creative work to increase the stock of knowledge, which developers can market or use for their own benefit when producing goods and services.	Development of software programs or design for a new aircraft
	Mineral exploration	This is the value of expenditure on exploration for petroleum and natural gas and for non-petroleum deposit and the subsequent evaluation of the discoveries made.	License and acquisition costs, appraisal costs, costs of test drilling and boring
	Software and Databases	Software consists of computer programs and supporting systems for both systems and application software	Packages such as Microsoft Office and VLC Media Player
		Databases consists of files organised in such a way as to permit resource-effective access and use of the data	An example of a database is a computer file
	Entertainment	This consists of the original films, recordings, manuscripts, tapes, etc on which drama performances, radio, television programmes, sporting events and etc are recorded and embodied.	Films, tapes, recordings, radio and television programmes and books
Other buildings and structures and transfer	Other buildings	Other buildings are buildings that are not dwellings, industrial buildings, commercial buildings, educational buildings and health buildings.	Schools, hospitals, prisons, religious, sport, amusement and community buildings
	Other structures	Other structures include structures other than buildings, including the cost of the streets and sewers. The costs of site clearance and preparation are also included.	Roads, bridges, historical monuments, shafts, tunnels and flood barriers.
	Transfer costs	Transfer costs, sometimes known as cost of ownership transfer, are the costs associated with buying or selling an asset	Transportation costs, legal fees and stamp duty.
Information and communication technology	ICT	This mainly consists of computer hardware and telecommunications equipment such as computers and mobile phones	Computers, laptops, mobile phones and gaming consoles
equipment (ICT) and other machinery and equipment	Other machinery and equipment including weapons	Other machinery and equipment consists of all equipment and machinery that is for general or special use. General use machinery includes engines, turbines, ovens, etc. Special use machinery includes machinery for mining, domestic appliances, agricultural equipment, etc	Typically large electronic equipment (e. g. equipment used in the production of goods and services)

Cultivated	Cultivated assets are livestock for breeding (including fish and poultry)	Livestock not for slaughter, orchards, vineyards, dairy draught
------------	---	---

4. Changes to the Quarterly Acquisitions and Disposals of Capital Assets Survey in Quarter 3 (July to Sept) 2016

Following a consultation on changes to ONS products, completed in February 2016, in our response we stated that we would be reducing the sample size of the Quarterly Acquisitions and Disposals of Capital Assets Survey (QCAS) by 10%. This reduction was implemented in the Quarter 3 (July to Sept) 2016 provisional release so that the survey sample size is now 24,500, compared with 27,000 previously. The sample reduction has been managed to ensure that it does not affect the quality of our estimates. We will continue to monitor the effect of the sample reduction.

5. Changes to the Quarterly Survey of Capital Expenditure in Quarter 1 (Jan to Mar) 2015

In Quarter 1 (Jan to Mar) 2015, we moved to the Quarterly Acquisitions and Disposals of Capital Assets Survey (QCAS) from the Quarterly Survey of Capital Expenditure (CAPEX). This is outlined in the Business investment, Quarter 4 (Oct to Dec) 2014 revised results bulletin and in Changes to the Annual Business Survey, the Quarterly Survey of Capital Expenditure and the Survey into Business Spending on Capital Items, in 2015 (published 22 August 2014). The main reason was to move to the updated European System of Accounts (ESA) 2010 manual which provides international guidance for national accounts.

The main changes to the survey are:

- adding new questions to improve the quality of our estimates and to meet the latest European legislation requirements (ESA 2010)
- removing the lower limit of £500 for the value of reported assets, so all relevant assets (even those below businesses' Asset Register threshold) can be reported
- including small tools used in production in the definition of GFCF
- improving the questionnaire's layout (including new sections and headings), to make completing the questionnaire easier

The data from the new questions will not be included in estimates of GFCF and its components until 2017, when there will be 2 years of data available for quality assurance.

6. British Nuclear Fuels Ltd (BNFL)

In April 2005, nuclear reactors were transferred from British Nuclear Fuels Ltd (BNFL) to the Nuclear Decommissioning Authority (NDA). BNFL is classified as a public corporation in national accounts and the NDA as a central government body. The capital formation estimates in this release reflect this transfer from the public corporations manufacturing category. The value of the transfer was negative £15.6 billion. The negative value reflects the fact that the reactors are at the end of their productive lives and have large decommissioning and clean-up liabilities. This shows up as a prominent trough in Quarter 2 (Apr to June) 2005 in the general government series and a complementary peak in Quarter 2 of the business investment series, which includes investment by public corporations (except dwellings and transfer costs). A more detailed explanation about the transfer can be found in the December 2006 Business investment release.

7. Other relevant sources of data

International business investment comparisons are not available on a like-for-like basis, as the compilation of European statistics on business investment differs from the data provided within this release. However, European estimates of business investment provided by Eurostat, the European statistical office, can be found on the Eurostat website.

Business investment in the UK accounts for over half of total gross fixed capital formation (GFCF).

The <u>GSS Business Statistics – interactive user guide</u> is an interactive tool to help you find what business and economic statistics are available, and choose the right data for your needs.

We publish the following statistical releases, which provide complementary information on UK business and economic performance:

- <u>Profitability of UK companies</u> quarterly data on capital employed by private non-financial corporations (PNFCs); contains annual, net and gross rates of return (expressed as percentages) on capital used by PNFCs
- Quarterly national accounts includes UK data on GFCF and changes in inventories
- <u>UK Economic Accounts</u> quarterly detailed estimates of national product, income and expenditure, UK Sector Accounts and UK Balance of Payments, including data on GFCF
- <u>UK National Accounts: the Blue Book</u> annual publication of the UK National Accounts, including data on GFCF
- Retail sales monthly estimate of UK retail sales
- <u>UK manufacturers' sales by product (PRODCOM)</u> annual output by manufacturers
- <u>Labour market statistics</u> monthly data on employment, unemployment, economic inactivity, claimant count, average earnings, labour productivity, vacancies and labour disputes
- Business demography annual statistics on UK business births, deaths and survival

8. Feedback

We welcome your feedback on the business investment release and data. Please contact gcf@ons.gsi.gov.uk. You can also engage in discussion about business investment, and, share information with other users or producers of financial and economic statistics by visiting the Financial and Economic Statistics User Group on the Royal Statistical Society's StatisUserNet discussion forum.

9. Accessing data

To see a time series of the data please use the time series datasets on our website.

10. Code of Practice for Official Statistics

<u>National Statistics</u> are produced to high professional standards set out in the <u>Code of Practice for Official Statistics</u>. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.

 $^{1\,}Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets$

² Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying dwellings (AN.111)

dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

Chained volume measure, seasonally adjusted, percentage change latest quarter on previous quarter

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets
2 Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other

structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)
5 Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

Please note that assets and sectors may not sum to their respective totals due to rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

Chained volume measure, not seasonally adjusted, level

£ million (Reference Year 2013)

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets
2 Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying dwellings (AN.111)

⁴ Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116) $\,$

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

G10

Gross Fixed Capital Formation by sector and type of asset

Current price, seasonally adjusted, percentage change latest quarter on previous quarter

£ million (Reference Year 2013)

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets

² Remaining investment by public corporations included within business investment 3 New dwellings and improvements to dwellings, excludes the value of land underlying dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other

structures and land improvements. Also included are the costs of ownership transfer on

non-produced assets (AN.116)
5 Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

Current price, seasonally adjusted, percentage change latest quarter on corresponding quarter of previous year

£ million (Reference Year 2013)

 $^{1\} Not\ including\ expenditure\ on\ dwellings,\ land\ and\ existing\ buildings\ and\ costs\ of\ ownership\ transfer\ of\ non-produced\ assets$

Please note that assets and sectors may not sum to their respective totals due to rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

² Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying dwellings (AN.111) $\,$

⁴ Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets

Please note that assets and sectors may not sum to their respective totals due to rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

² Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other

structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)
5 Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets
2 Remaining investment by public corporations included within business investment

² Remaining investment by public corporations included within business investment 3 New dwellings and improvements to dwellings, excludes the value of land underlying

dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

Please note that assets and sectors may not sum to their respective totals due to rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

 $^{1\} Not\ including\ expenditure\ on\ dwellings,\ land\ and\ existing\ buildings\ and\ costs\ of\ ownership\ transfer\ of\ non-produced\ assets$

Please note that assets and sectors may not sum to their respective totals due to $% \left\{ 1,2,\ldots ,n\right\}$ rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

 $^{{\}bf 2} \ {\bf Remaining} \ investment \ {\bf by} \ {\bf public} \ {\bf corporations} \ included \ within \ {\bf business} \ investment$

³ New dwellings and improvements to dwellings, excludes the value of land underlying $\,$

⁴ Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

Chained volume measure, seasonally adjusted, percentage change latest quarter on corresponding quarter of previous year

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership

Please note that assets and sectors may not sum to their respective totals due to rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the $\,$ uncertainty on the estimates.

transfer of non-produced assets
2 Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying

dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116) $\,$

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets

6 The sector (S) and asset (AN) codes quoted are based on those published in the European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts. eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

Please note that assets and sectors may not sum to their respective totals due to $% \left\{ \left(1\right) \right\} =\left\{ \left(1\right) \right\} =$ rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

² Remaining investment by public corporations included within business investment 3 New dwellings and improvements to dwellings, excludes the value of land underlying

dwellings (AN.111)

4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)

5 Includes cultivated biological resources (AN.115) and weapons (AN.114)

¹ Not including expenditure on dwellings, land and existing buildings and costs of ownership transfer of non-produced assets

Please note that assets and sectors may not sum to their respective totals due to rounding. In addition, annual seasonally adjusted totals may not equal their non-seasonally adjusted equivalents. These differences are well within the range of the uncertainty on the estimates.

² Remaining investment by public corporations included within business investment

³ New dwellings and improvements to dwellings, excludes the value of land underlying

dwellings (AN.111)
4 Other buildings and structures (AN.112) consist of buildings other than dwellings, other structures and land improvements. Also included are the costs of ownership transfer on non-produced assets (AN.116)

⁵ Includes cultivated biological resources (AN.115) and weapons (AN.114)

⁶ The sector (S) and asset (AN) codes quoted are based on those published in the $\hbox{European system of accounts - ESA 2010 plus additional codes for non-ESA 2010 concepts.}$ eg BUS INV = BUSINESS INVESTMENT

Q1 refers to Quarter 1 (January to March), Q2 refers to Quarter 2 (April to June), Q3 refers to Quarter 3 (July to September), Q4 refers to Quarter 4 (October to December)

$\textbf{G15R} \hspace{0.2cm} \textbf{Gross Fixed Capital Formation by sector and type of asset}$
